Water Projects Financed

House Committee Suggests Budget Of \$464 Million; Less Than in 1954

WASHINGTON (AP)—Appropriation of 464 million dollars for water projects was recommended to Congress today by the House Appropriations Committee.

This represented a cut of 48 million dollars from the budget recommendations of President Eisenhower and a reduction of 16 million below similar appropriations last year.

Of the total recommended by the committee for the year starting July 1, \$312,672,800 would be for construction; \$82,500,000 for operation and maintenance of existing projects; \$4,280,000 for preliminary surveys and general investigations; \$10,200,000 for general expenses; \$46,675,000 for the Lower Mississippi; \$2,400,000 for the Niagara Falls remedial work and \$150,000 for the St. Lawrence River Joint Board of Engineers.

The committee eliminated seven Eisenhower requests and added money for 11 projects not listed in the budget.

A big chunk of the construction funds recommended by the committee—some 87 million dollars—would go to projects in the Pacific Northwest.

The recommended appropriations for flood control, navigation, beach erosion and hydroelectric projects include (budget recommendations shown in parentheses if different) included:

MISSOURI — Cape Girardeau \$750,000; Carthage \$367,000; East Poplar Bluff and Poplar Bluff \$314,000; Missouri River, Kansas City to mouth \$2,000,000; Perry County Drainage District 1, 2 and 3, \$500,000; Table Rock Reservoir, Mo. and Ark., \$11,000,000.

Wingless Ship Nearly Doomed To Oblivious End

EMPORIA, Va. (AP)—Charles Pritchard's wingless airship almost came to grief today when it ran off an airport runway into a field. But he continued trying to get the strange ship into the air.

Pritchard lost steering control shortly after he began his fourth taxi run in the weird looking ship he designed and built, both as an airship and automobile.

The ship was pulled back on to the runway by Pritchard's friends. Apparently undamaged by its bumpy 100-foot sally into the field, the ship started immediately on its fifth run.

"She tried to fly on very low throttle," the 46-year-old railroad gang foreman told reporters just before he began the fifth run.

A crowd estimated at 1,500 assembled early today at the Emporia airport for their first look at the aluminum ship which Pritchard built in Kluge's Metal Shop.

P. R. Steinman, aviation safety agent for the Civil Aeronautics Administration, said he had instructed Pritchard to fly no higher than 10 feet above the ground because he had no parachute.

On the first taxi run the front wheel of the ship's tricycle landing gear shimmied badly and the ship swerved to one side because the brakes were improperly balanced.

Flood Aid for State

WASHINGTON (AP)—The House Appropriations Committee today approved allocation of two million dollars to Army Engineers for small flood control and navigation projects to cost under \$150,000 each.

The engineers had asked the committee to approve that amount for use on projects including:

Missouri: Mississippi River at Louisiana \$83,000.

Change of Heart

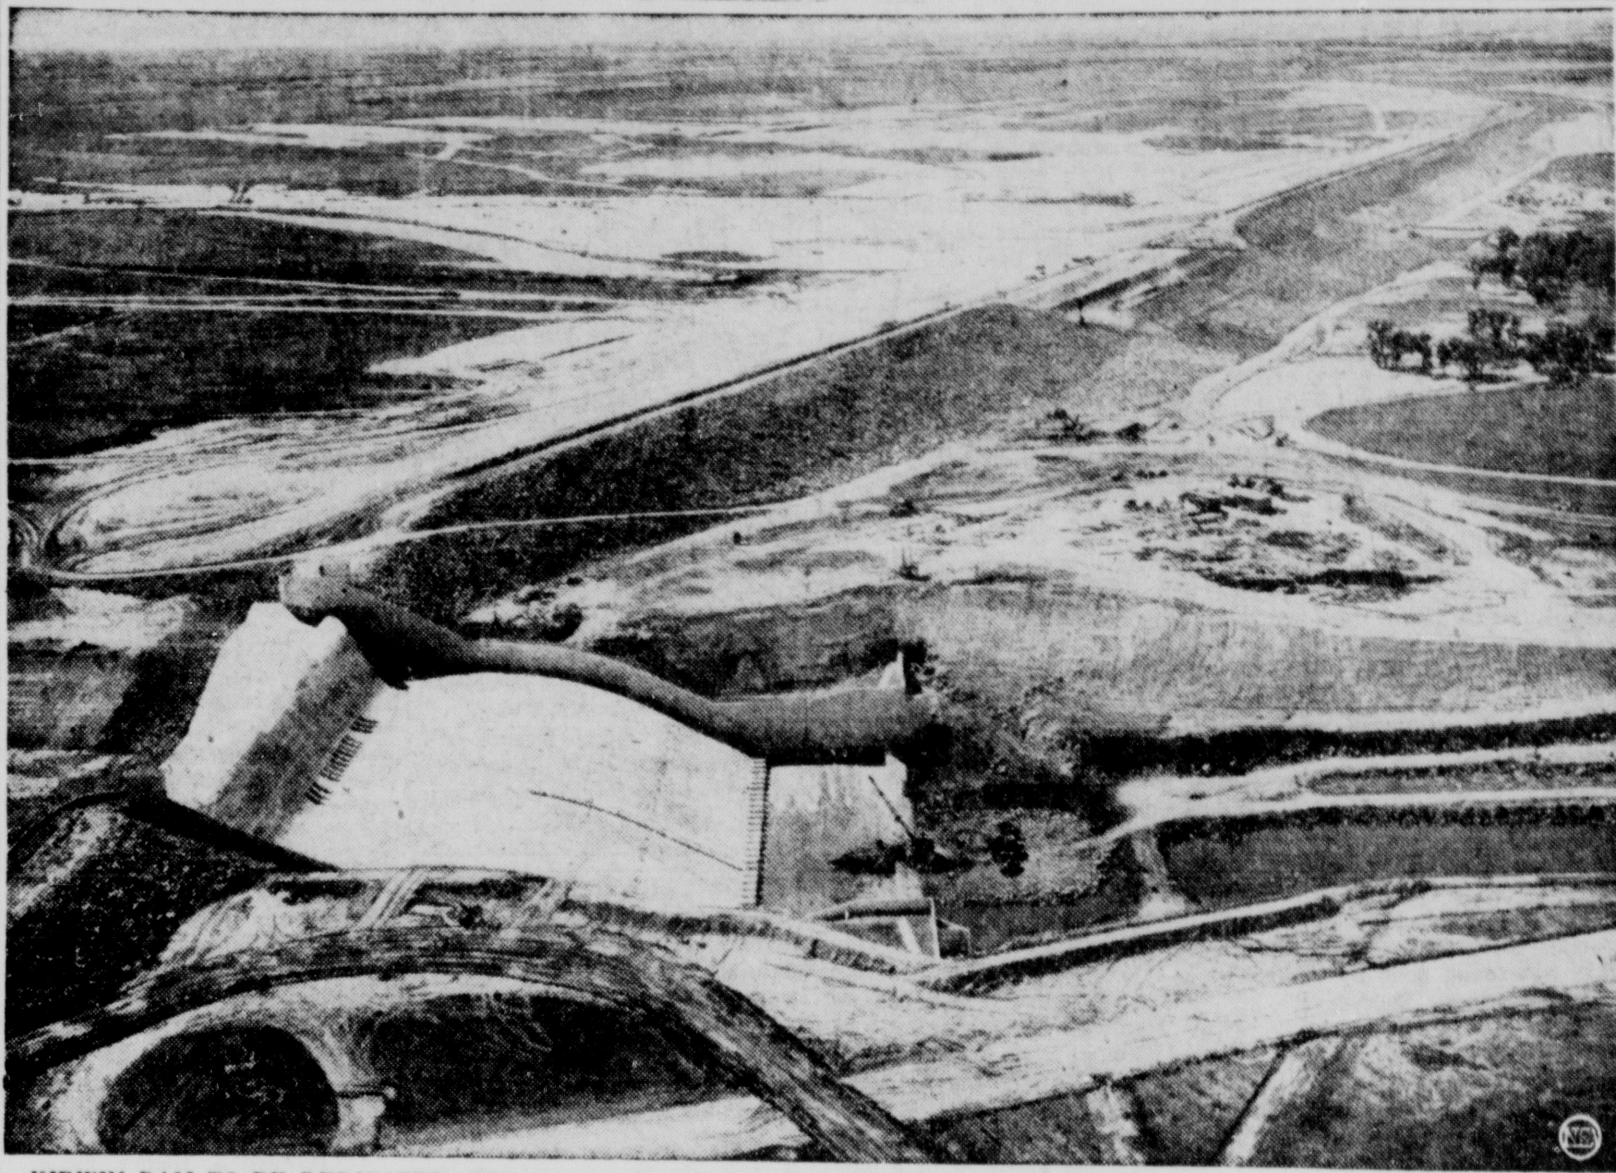

Umbrellas and jackets suddenly flowered this afternoon as Ol' Sol had a change of heart and went back to bed after a bright start.

The temperature at 7 a. m. was 50. 55 at 1 p. m. and 54 at 2 p. m. Rainfall to 1:30 p. m., .17 inch.

The temperature one year ago today, high 91, low 66, with 21 inch of moisture; two years ago, high 95, low 72; and three years ago, high 97, low 70.

Mostly cloudy with scattered light showers tonight and Saturday. Continued cool. Low tonight near 50. High Saturday near 70.

Stage at Lake of the Ozarks 55.1, rise .1.

KIRWIN DAM TO BE DEDICATED—This is an aerial view of Kirwin Dam on the north fork of Solomon River near Phillipsburg, Kansas, which will be dedicated June 10. It is a \$19,500,000 addition to the series of Missouri River Basin flood control structures and has potential storage for water to irrigate 11,500 acres of land. The Bureau of Reclamation has nearly completed the 169-foot-high structure which runs 12,646 feet. The dam is 30 feet wide at the crest, 900 feet at its base. The overflow spillway, left foreground, is 400 feet wide.

Salk Vaccine Will Fulfill Its Chief Aim

WASHINGTON (AP)—The Public Health Service said today it was required to develop new and safer standards for Salk polio vaccine after unexpected problems in mass manufacture had threatened to wipe out a "built-in factor of safety."

Surgeon General Leonard A. Scheele expressed belief, however, "that this vaccine will fulfill its bright promise as a major advance in the prevention and control of a disease that has shadowed the lives of children and young adults for many generations."

And the lessons that have been learned, he said, "offer promise of solutions to a hitherto baffling group of disease problems."

Noting that antibiotics and sulfa compounds, the "wonder drugs" of recent years, "have made little impression on the problems of virus infection," Dr. Scheele added:

"We can expect that potent new biologicals will be developed which will have unprecedented application, particularly to control of virus diseases."

The statements were contained in a comprehensive and highly technical review of the entire polio vaccine program, long promised but released unexpectedly early today. Publication of the document, running 163 typewritten and printed pages, was ordered after the New York Times printed a portion of it.

In a letter transmitting the report to Secretary of Welfare Hobby, Scheele said that "events which in the traditional course of scientific development would have covered years were telescoped into months and, as a result, both successes and failures have been magnified."

"In the long run, however, the nation and the world will surely have gained from efforts to speed the availability of an effective immunizing agent against this disease."

Much of the material in the report is history—the story of last year's extensive field tests, the general approval of the polio vaccine on April 12 this year, the development of polio in some vaccinated children, the go-slow warnings and subsequent stoppage of immunizations, and the development of new standards which Scheele said at the time were designed to "make a safe vaccine safer."

Much of the new material reviews the technical data and studies made by scientists behind closed doors, which led to the increased safety standards.

Wheat Crop Forecast Below Previous Level

WASHINGTON (AP)—The Agriculture Department today forecast this year's wheat crop at 845,215,000 bushels.

This estimate, the first of the year for the full crop, compares with 969,781,000 produced last year and 1,154,073,000 for the ten-year (1944-53) average.

This year's crop was grown under more rigid federal production control restrictions than last year's, and also has been plagued by severe drought conditions in parts of the Great Plains producing areas.

But record large reserves accumulated from past big crops assure the country of supplies far in excess of needs.

Millions Suggested—Continuing Funds Proposed For SPA and REA by House

WASHINGTON (AP)—Restoration of the Southwestern Power Administration's controversial "continuing" fund, thus permitting resumption of contracts between SPA and REA "super" cooperatives, was proposed in an appropriations bill reported to the House today.

Carrying six million dollars for the fund, the bill was approved

Chief Instructed To Report Often On Investigation

ST. LOUIS (AP)—Maj. James M. Thompson, head of a special police group investigating reports of pay-offs to policemen by a brothel operator, has been told to report to the Board of Police Commissioners each week on his progress.

The order came yesterday at a board meeting. Thompson took over the intra-department inquiry from Police Inspector George Parker.

Chief of Police Jeremiah O'Connell said he has received written reports from about 20 policemen who were asked if they had any knowledge of activities at a massage parlor operated by Mrs. June Alma Lytz. She was slain April 12 in a shooting which had no connection with the operation of the establishment.

Miss Pauline Cloin, a former employee of Mrs. Lytz, later touched off the investigation by telling Circuit Attorney Edward Dowd that she saw at least 12 policemen receive money from Mrs. Lytz.

The Circuit Court grand jury, which also is investigating the pay-off allegations, yesterday was reported inquiring into activities of a small midtown hotel previously described by another grand jury as a house of prostitution.

The grand jury later recessed its inquiry until next Tuesday.

Khrushchev Approves Visas for Newsmen After Invitations

BELGRADE, Yugoslavia (AP)—Soviet Communist boss Nikita Khrushchev is making good—and fast—on his invitation here to Western newsmen to visit Moscow.

Weaving out of the farewell banquet which wound up the Soviet-Yugoslav talks here early last Friday, Khrushchev after five hours of dining and toasting gave a "come one, come all to Moscow" bid to correspondents clustered around the door.

The next day some 14 correspondents, many of them Americans, swamped the Soviet Embassy with visa applications. In Stalin's day the requests would have languished for months before they were rejected.

Yesterday afternoon the embassy informed Eric Bourne, British correspondent for the London Daily Express and the Christian Science Monitor, his visa had been granted.

Red Cross Swim Class To Start Next Friday

Red Cross Intermediate Swimming Classes will start Friday, June 17th, 11 a. m. at Liberty Park pool. Those who are eligible for these classes please report at this time.

Steelworkers Still Bargain For Wage Hike

PITTSBURGH (AP)—CIO United Steelworkers bargainers, seeking a "sizeable" wage increase, today opened talks with the last of six major basic steel producers.

Negotiators for Inland Steel Corp. met with a union committee in a closed session to hear UAW demands.

Meanwhile, Jones & Laughlin Steel Corp. and Youngstown Sheet & Tube Co. resumed bargaining conferences begun yesterday.

The 600,000 UAW members in the industry now earn an average of \$2.33 an hour. Observers believe the union is asking as much as 25 cents an hour in pay hikes. They say it probably will agree to a final settlement of from 12 to 15 cents an hour.

The talks with U.S. Steel Corp., Bethlehem Steel Corp. and Republic Steel Corp., which began earlier this week, are in recess over the weekend. If no agreement has been reached by midnight of June 30, the union will be free to strike.

The talks are being held under a wage reopener clause of the current two-year contract, and are confined to wages only.

Both sides remarked yesterday on the "spirit of cooperation" which has marked the discussions so far.

Talks began yesterday with Jones & Laughlin Steel Corp. and Youngstown Sheet and Tube Co. and were to continue today.

Thus far, the industry negotiators have made no comment on the union's proposals.

Most observers believe an agreement will be reached before the strike deadline.

Some Ford Employees To Resume Working At Kansas City Plant

KANSAS CITY (AP)—Part of some 3,000 Ford Motor Co. employees were scheduled to resume work today following their walkout at three installations here early this week.

Officials of Local 249 of United Auto Workers, C.I.O., last night instructed the workers to return. The president of the local, Gene Minshall, said local officials will meet Monday in Detroit with Ford representatives in an attempt to work out an agreement.

Ford officials said full scale operations will be resumed today at a parts depot, tomorrow at an assembly plant, and at an aircraft plant Monday.

The local dispute, Minshall said, centers around the granting of merit raises and the granting of promotions on the basis of seniority.

KDRO-TV Is Approved For CBS Telecast, 'Game of the Week'

The Columbia Broadcasting System telephoned Milt Hinlein Friday morning to inform him that his television station in Sedalia, KDRO-TV, has been approved for carrying the network show, "Game of the Week," a "live" telecast of baseball. The first game will be shown Saturday at 11:45 a. m.

The show will continue through the season, but the time will vary according to the location of the game. The time will be carried in the KDRO-TV schedule in The Democrat-Capital each Sunday.

GM Shut Down Strike Caused Say Managers

Has Made No Offer On Possible Okay Of Ford Settlement

DETROIT (AP)—General Motors Corp. today closed 20 car assembly and body plants idling 60,000 workers because of what it described as strike-caused parts shortages.

National contract bargaining between GM and the CIO United Auto Workers continued, meanwhile, with every indication that the nation's largest auto firm intended to make its bid during the day to stave off a threatened strike at midnight Sunday.

It was learned that GM had made no offer to the union as yet on whether it will go along with the same contract deal that the UAW negotiated last Monday with the Ford Motor Co.

This called for a modified form of the guaranteed wage, plus pay, vacation, holiday and other concessions estimated by the UAW to be worth more than 20 cents an hour per worker. UAW President Walter Reuther said GM's 325,000 UAW workers were ready to strike Sunday night unless GM matched these demands.

GM said the shutdowns were caused by earlier wildcat strikes, in apparent protest against slowness of the national bargaining negotiations, with the walkouts shutting off parts pouring into various GM plants across the country.

This lack of parts, GM said, compelled the company to close down GM Chevrolet assembly and body plants in Detroit, Flint, Bay City, and Saginaw, Mich., and in Buffalo and Tonawanda, N. Y., Indianapolis and Muncie, Ind., Toledo, Ohio, and Baltimore, Md.

GM said all the walkouts violated its expiring contract with the UAW and added, with apparent hope of a contract settlement being achieved before the Sunday night strike deadline, that all workers would be recalled Monday.

Other companies supplying parts to GM plants closed today also were notified to stop shipping parts and material into the factories.

The contract negotiations were recessed last night just before midnight until this afternoon. It was believed that GM then would make its contract offer bid to match, or improve upon, the Ford settlement to give the UAW time to assess it in advance of the Sunday night time limit.

The UAW claimed it had solved all the GM wildcat walkout situations except one—at the Southgate plant, near Los Angeles, involving several thousand workers, and sent special union emissaries there to get strikers back to their jobs.

Clear Lines Drawn For Major Power On Contract Battle

Appropriations Committee Strikes Double Blow, Sends Funds Bill for Federal Plants

WASHINGTON (AP)—The House Appropriations Committee drew clear lines today for a major congressional fight over the controversial Dixon-Yates power project.

It struck a double blow at the project as it sent to the House floor for debate next Wednesday to finance government power agencies for the fiscal year starting July 1.

By a split vote, the committee turned down an administration request for 6½ million dollars to build a power line linking the Dixon-Yates plant at West Memphis, Ark., with the Tennessee Valley Authority power system. Then it earmarked the money to start construction of a new TVA steam plant at Fulton, Tenn.

The effect of the action, if sustained by Congress, could be to leave the Dixon-Yates project without an outlet for its current and to build a new TVA plant to generate power in an area the Dixon-Yates group plans to serve.

House leaders conceded that the action would stir up a hot fire fight that would have repercussions in the 1956 political campaign. Democrats predicted that the committee recommendation would be upheld by a partisan vote.

Ground already has been broken for the 107-million-dollar West Memphis plant to be financed by the Middle South Utilities Co. headed by Edgar H. Dixon and the Southern Co. headed by Eugene Yates.

The administration concluded the contract in place of asking Congress for money to build the Fulton TVA plant, which Congress has turned down several times.

Governor-Elect Of Lions Gives Club New Banner

The Sedalia Lions Club has been presented a beautiful banner by District Governor-elect E. B. Smith, as a token of appreciation for what the Sedalia Lions have done for him in his work as an officer of the club.

The presentation was made to President John B. Ellison during the ceremonies on installation night held in the Ambassador Room of the Bothwell Hotel. The banner, with a purple background, has a large Lions emblem in the center, across the top in a semi-circle is "Lions Club," and at the bottom "Sedalia, Missouri." It is a 3 by 5 foot banner and has gold rope at the top with gold fringe on the bottom.

In making the presentation Smith said, "I want to present this beautiful token to the Sedalia Lions Club for the most excellent cooperation shown me while I served as secretary and president for their efforts to have me elected District Governor of District 26-C, and for what enjoyment I have received from being a Lion."

Smith then presented Ellison with a string to pull which unfurled the banner behind the speaker's table.

The service will close with children's baptism.

Rev. Croxton Begins Series of Sermons On Churches of Asia

At the First Baptist Church Sunday morning the pastor, Rev. T. W. Croxton, will speak on the subject, "A Church Which Lacked a Great Essential." This is the beginning of a series of morning messages on the seven churches of Asia as given in the Book of Revelations. "Peace! Be Still!" is the title of an anthem which will be given by the choir at the morning service. At the evening service, the Rev. H. W. Chaney will bring the message and there will also be special music at this hour.

The pastor will speak at the First Baptist Church at Marshall Sunday afternoon at 2:30 at the ordination of several deacons.

Other important meetings of the week will be the mid-week worship service at 8 p.m. Wednesday and the program meeting of the Missionary Society on Thursday.

OBITUARIES

Ben P. Goodwin
Ben P. Goodwin, 88, son of the late J. West and Martha Hunt Goodwin, died Thursday at St. Louis.

Several decades ago he conducted a printing establishment on South Ohio in Sedalia and up to his retirement had been an executive in the Hogan-Goodwin Printing Co. in St. Louis.

His father, the late J. West Goodwin, was publisher of the old Sedalia Bazaar for a long term of years and was widely known throughout the state. The elder Goodwin was a bitter foe of organized labor and through his active years fought it through his publication and otherwise. The son, joining the ranks of shops that were unionized, brought fatherly disdain upon him. Some years later Ben Goodwin left, later located in St. Louis.

He was born at Springfield, Mo., and his wife, Mrs. Claudia Ballard Goodwin, died a couple of months ago. A son, Ben B. Goodwin, contractor and builder at Chesterfield, Mo., survives.

The body was taken to the Albert H. Hoppe Funeral Home, St. Louis, where services will be at 2 p.m. Saturday with burial in Bellefontaine Cemetery, St. Louis.

Mrs. Martha Jane Suggs

Accidents

Two cars were damaged about 5 p.m. Thursday in an accident at the intersection of Ninth and Ohio.

Involved in the mishap were a 1953 Dodge sedan driven by Dorothy D. McCann, Jefferson City, who was traveling east on Ninth, and a 1947 Chevrolet being driven east on Ninth by William Pilcher, 1625 East 16th.

Damage resulted to the grill and fender on the McCann's machine and to the rear door of the Pilcher's vehicle.

Three cars were in collision on U.S. Highway 50, about a half mile west of the west junction of Highway 50 and the Smithton road about 11:55 a.m. Friday. Occupants were not injured.

The accident occurred at a one-way traffic area where the highway was being repaired.

A 1948 Chevrolet coach was driven east by Lonnie D. Hawkins, 63, of Anutt, Mo., and had stopped to await the passing of oncoming traffic, a 1950 Ford coach driven by Harold D. Adams, 31, Route 2, Great Bend, Kan., had stopped behind Hawkins.

A 1949 Plymouth coach driven by Homan R. Williams, 18, Otterville, also headed east, skidded on the slick pavement and ran into the rear of the Ford knocking it 14 feet into the rear of the Chevrolet.

Ironically as it may seem, no damage resulted to the 1948 Chevrolet, but the grill, left front fender and the rear end of the Ford was damaged to the extent of more than \$200, while the front end of the Plymouth was mashed in doing about \$100 damage.

All cars were driven away on their own power after Sgt. E. W. Van Winkle of the State Patrol conducted an investigation.

CP Plans Told At Kiwanis Club

A talk about cerebral palsy and what is being done for those afflicted with it in Sedalia and throughout the nation, was the subject of a talk by A. B. Warren, member of United Cerebral Palsy of Pettis County, before the Sedalia Kiwanis Club meeting in Bothwell Hotel Thursday noon.

Supplementing his talk, there was shown a full color moving picture of the cerebral palsy clinic activities in Seattle, Wash., in which the Seattle Kiwanis Club was a sponsoring agent in its establishment and continued operation.

The speaker was introduced by Program Chairman Victor Scott. The Rev. Arthur E. Schmidt gave the invocation and led the singing, with Miss Lillian Fox as accompanist.

Pinkney Miller reported the Pancake Day receipts totaled \$387 with a few ticket sales outstanding. Expenses of the project were \$101.09.

Arthur Klang at the head table was recognized for his 16 years' perfect attendance record.

Guests were: Lieut. French with R. C. Hemphill and William Jens, manager of the Public Loan Corporation, a new member.

Force Base at 6:30 p.m. Thursday caused considerable damage to two automobiles. The occupants were not injured.

The accident occurred a short time after the Sedalia Air Force Base picnic held at the Knob Noster State Park had ended and the automobiles were enroute back to the base.

A 1952 Buick sedan driven by Daniel Castro, had stopped to await a long line of traffic entering the base. Another car, a 1949 Ford coach, driven by Everett P. King, also headed south, skidded into the rear of the Buick. The deck lid on the Buick was smashed in while the entire front portion of the Ford car was demolished.

C.R. Rebekahs Asked To Present a Drill At District Assembly

Green Ridge Rebekah Lodge No. 830 met in regular session on Monday night, June 6, with the Noble Grand Miss Gladys Fletcher, presiding.

During the opening ceremony, Mrs. Walter Carpenter read the Bible lesson.

During the business session a letter was read from the District president, Mrs. Eloise Adkins, of the Lincoln Rebekah Lodge, asking that the Green Ridge Lodge put on a floor drill at the District Assembly meeting which will be held at Lincoln this fall.

Mrs. E. H. Boltz reported on the Rebekah State Assembly Convention, which she attended as a visitor in May at Columbia.

The next meeting on Monday night, June 20, will be brotherhood night, and the men members of the Rebekah Lodge will officiate in the opening and closing ceremonies of the lodge instead of the regular women officers.

At the conclusion of the meeting, the hostesses, Mrs. Clyde Rehmer and Mrs. J. M. Palmer, served refreshments to 30 members.

RNA's Have Tri-County Meet at Green Ridge

The tri-county (Johnson, Benton and Pettis) district meeting of the Royal Neighbors of America was held with Laurel Camp 3447 at the hall in Green Ridge on June 4.

The following officers were present: Supreme Manager, Jewel James of Rock Island, Ill.; State Supervisor, Lucy M. Dray, Chillicothe, and District Deputy, Juanita Dow, Sedalia.

Following registration of delegates from most of the camps in the district, the morning session was devoted mainly to routine business.

The banquet was served at noon in the dining room of the Green Ridge Presbyterian Church by the members of the Esther and Ruth Circles. The tables were attractively decorated with centerpieces of Paul's scarlet roses. Greenery, red roses and flags arranged in various places in the room added beauty to the setting. Mrs. H. A. Hite arranged the decorations.

The afternoon session was devoted to exemplification of the different phases of the work. Supervisor Lucy Dray also conducted a school of instruction.

An address by Supreme Manager Jewel James was a highlight of the convention program.

A class adoption of five was also another event. The initiation degree was presented by the camp of Sedalia.

Holden Camp put on a program, "A Mock Wedding," which was quite humorous. Another interesting feature of entertainment on the program was a square dance.

The next tri-county convention will be held in Knob Noster in 1956.

Fair Exhibits Are Discussed at Meeting Of G.R. Garden Club

Mrs. F. E. Helman assisted by Mrs. Ida McEmore was hostess to the members of the Green Ridge Garden Club on Tuesday, June 7, at her home northeast of Green Ridge.

A dessert course was served at two o'clock to twenty members and three guests, Mrs. O. A. Ayers, Toledo, O., Mrs. Eldo Palmer, Sedalia and Mrs. F. L. Calvert, Green Ridge.

The president, Mrs. Carl Johnson, presided during the meeting. Mrs. Milford Lewis gave a short talk on "Rock Gardens", telling of the many small plants that might be used in rock gardens.

Mrs. J. M. Palmer presented a talk on "Different Types of Roses" and showed several varieties of roses. She also named a number of roses that had won the All American Rose Selection Award. She said that all the roses that won this award were tested in trial gardens all over the United States and that the All American Rose Selection award began in 1938.

The Missouri State Fair Exhibits were discussed and Mrs. Mattie Myers assigned the exhibits in the arrangement classes to various members.

Several names for the fall flower show were presented by the members, from which the name of the flower show will be selected by a committee. The members voted to send a petition to the Missouri Congressmen asking that the rose be made the national flower of the United States of America. Mrs. Ida McEmore was appointed to draw up the petition to be signed at the July meeting. The Green Ridge club is complying with other Garden Clubs and Rose Societies throughout the United States to make the rose the national flower. Mrs. Johnson reported that those that went on the Garden Pilgrimage to Windsor had an enjoyable tour of various gardens there.

Mrs. Ezra Inselman and Mrs. Edna Ryan will be hostesses for the July meeting and Mrs. Milford Lewis will present a travelogue on her trip to California.

Problems Of Two Cities . . .

While toiling with our own domestic problems of city growth and the resultant enigmas thereby provided, Sedalians may be assured other communities are concerned with similar conditions — and are doing something about them.

Frequently the Sedalia Chamber of Commerce polls its membership for opinions on current questions related to the organization's activities. Lately one was an expression concerning the Urban Area Report which, by the way, was favorable and provided encouragement for a report to city council supporting a proposal for a bond issue.

Jefferson City's Chamber of Commerce recently conducted a poll of its membership to determine the relative importance of projects under consideration in the capital city. Answers from business men of our neighboring city revealed that they are plagued with a problem which has been bothering Sedalians, too. But they consider it their No. 1 concern—parking with emphasis on off-street lots and parking garages.

The parking questions easily topped suggestions listed in Jefferson City's questionnaire on what members wished the

Chamber to devote top attention to this year.

Other suggestions acted upon provide interesting sidelights to Jefferson City's planning program.

Second to the parking problem in the minds of Jeffersonians is new industry, and third is further work on a community building. Fourth was street and traffic improvement; fifth the extension of Industrial Drive; and sixth the establishment of a permanent industrial development corporation.

A popular suggestion was a face-lifting for downtown business properties. Other suggestions offered by Jeff City business men included building a new trade area, establishment of neighborhood shopping centers, obtaining a new hotel and new first-class restaurants, one-way streets, rezoning of business districts, and obtaining more conventions.

It may be interesting to note that on some of the major suggestions offered by Jefferson City business men, Sedalia already has made progress with similar ones.

Sedalia and Jefferson City have much in common but Sedalia still is far ahead of the Capital City as an appealing and economical shopping center for Central Missourians.

Pioneers Do Not Need A Dictatorship

According to voluminous surveys and reports submitted recently to the Social Commission of the United Nations, a true "pioneering spirit"—such as motivated early American settlers—is growing up among the under-developed countries.

This new spirit is officially acknowledged to be the essential ingredient of what are known as "community development" schemes now under way in rural towns and villages of such countries as India, the Philippines, Indonesia, Egypt, Iraq, Mexico and Puerto Rico. Drawing upon grassroots talent and volunteer labor resources, backward peoples in these "community development" schemes have built new roads, schools, health clinics, and improved housing and sanitation facilities for their own localities.

Governments are naturally helping these "community development" projects with money, materials, and guidance from skilled social workers. But nothing is done by the government unless or

until local peoples request assistance in their self-help programs. The key to "community development" is always the individual. Because of this fact, United Nations endorsement of "community development" as the most rapid and efficient means to achieve progress in backward countries may well represent, in the long run, a severe blow to the Communist theory that only through a "dictatorship of the proletariat" can poverty-stricken peoples hurry up the wheels of progress.

But more than UN endorsement is needed to facilitate the success of "community development." Technical assistance of "Point IV" plays a vital role. So do long-term loans and grants from the United States government. So far, Americans have contributed a great deal to promote this new pioneering spirit in the world. Pioneers of all nationalities have much in common with Americans.

Suggestive Overemphasis Of Subversion

By Joseph A. Dear
Democrat-Capital Washington Correspondent

WASHINGTON — There are many indications that the Eisenhower administration's seeming inability to appreciate Russian industrial capability is coupled with a tendency to overestimate the effectiveness of Communist subversion.

Such an imbalance could have disastrous consequences. Officials here grimly admit the relatively speedy production of the A-bomb, H-bomb, and intercontinental jet bomber by Russia was a rude shock. Failure to maintain nuclear and aerial superiority over the Reds would seriously compromise national security.

But in the past few years most administration officials have seemed more interested in focusing attention on the dangers of subversion. Without in any way minimizing this danger, it can be argued that it has been blown up out of all proportion.

Attorney General Herbert Brownell helped puff the balloon in his remarkable address to the Chicago Executive Club on Nov. 6, 1953. In this speech he asserted that Harry Dexter White, former Assistant Secretary of the Treasury, was a Russian spy.

"White," Brownell said, "was known to be a Communist spy by the very people who promoted him. . . . The FBI became aware of White's

espionage activities at an early point in his government career and from the beginning made reports on these activities to the appropriate officials in authority. . . .

Brownell pointed out that President Truman on Jan. 26, 1946, nominated White for an important position with the International Monetary Fund, although the FBI had already sent Harry Vaughan, the President's military aide, two memorandums detailing White's activities. That, of course, was the bullet Brownell wanted to get off.

The Senate Internal Security Subcommittee, which has long been interested in the White case, last week released the testimony of Henry Morgenthau. From 1934 to 1945 Morgenthau was Secretary of the Treasury. White's service covered the same span.

This is what Morgenthau said in part: "The entire time I was in office I had no reason to suspect White's integrity or his loyalty to the United States. No security agency, and no individual, ever reported or suggested to me that there was any doubt about White's loyalty. . . . If these charges had been brought to my attention while I was Secretary of the Treasury I should have immediately suspended White and ordered a full investigation. If these charges had been substantiated I should at once have removed White from office."

For this statement, and for making available for subcommittee study his voluminous diaries, Morgenthau was fulsomely thanked by Senator Eastland of Mississippi, the chairman. But it's obvious that the Morgenthau testimony cannot be reconciled with the Brownell speech.

For example, Brownell asserted the FBI "became aware of White's espionage activities at an early point in his government career and from the beginning made reports . . . to appropriate officials. . . ." The words "at an early point in his career" certainly seem to imply that the FBI was sending out reports on White before 1940, because White first went with the government in 1934. But there is simply no indication that this is so.

And there is Morgenthau's flat statement that no one ever warned him about White. Wasn't he an appropriate official? Or did someone keep FBI reports from reaching him? Or was the Attorney General merely overstating his case?

A Duty Neglected

While the facts concerning the commercial manufacture of Salk vaccine are still incomplete, this much is obvious: That the private companies did not on their own initiative apply a uniform and foolproof method for testing the safety of their vaccine. In fact, pharmaceutical companies are still squabbling over the desirability or necessity of testing systems now ordered by the U.S. Public Health Service.

But it's a little too late for squabbling of this nature. If damage was done through the faulty manufacture of Salk vaccine, then this damage cannot be undone now. Adequate government tests and standards for vaccine manufacture should have been worked out before—not after—large-scale commercial production got under way.

"Ah, May I Make a Suggestion?"

The World Today— Russian Cleverness a Myth

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON (AP)—Every time the Russian sneeze, the world twitches. What are they up to? It must be dark, devious and diabolical. There were even some misgivings they might outwit President Eisenhower if he sat down with them.

They're devious and clever. But they get too much credit for cleverness.

What they wanted more than anything for years was to keep the Western Allies unarmed and separated and West Germany neutralized. Thanks to Stalin, they failed in both. Sour, stubborn, Stalin yielded nothing.

Then he got too tough and upset the apple cart by letting the Korean War begin. This not only showed the west into alliance and rearming but eventually into letting Germany rearm and join the partnership.

For a year after Stalin's death his heirs, as if they could think of nothing better, followed his tactics out the window: threats and dire warnings if Germany was permitted to rearm.

Perhaps they thought this technique still had a chance, for until late in 1954 the Allies were squabbling among themselves on letting the Germans have guns again.

The Kremlin team must have seen the jig was up Dec. 30 when the French Chamber of Deputies voted for German independence and rearmament. Not long afterwards things began to change. On Feb. 8 Stalin's successor, Premier Georgi Malenkov, was bounced. This was widely interpreted in the guessing West as meaning (A) a tougher Kremlin policy and, or, (B) that there was now a fierce struggle for power in the Kremlin.

Perhaps the following was closer to the truth for, as events showed, the Kremlin policy got softer instead of tougher and nobody has lost his head there yet:

1. They were losing with Stalin's tactics. By a shift, to a show of friendliness and cooperation, they might still weaken the Western Alliance and even keep Germany from rearming since it hadn't started to rearm yet.

2. If they kept on the way they were going, with the West building up its strength, they might head into a war which would leave them pulverized.

3. A change in tactics needed a change in people. Malenkov should not be in the showcase if they were going to display a new face

of good fellowship and sweet reasonableness. Malenkov, like Stalin, looks sour and immovable. Judging from his pictures, he's an introvert. Good-Time-Charleys are extroverts.

The Kremlin shoved forward two men who at least act like Good-Time Charleys: Premier Nikolai Bulganin with a velvety beard which makes him look more like a symphony orchestra conductor than a revolutionist; and Nikita Khrushchev, credited with being the real boss, who performed like a butter-and-egg salesman on a spree when he visited Yugoslavia.

In time Red China got in on the act. It had good reason to want the West to relax. It needed trade with the West. The new Kremlin tactics evolved fairly fast.

They agreed to Austrian independence, with Austria neutralized. They agreed to a Big Four conference. They visited Yugoslavia with grins instead of threats. The Red Chinese suggested talks with the United States and let the shooting around Formosa die down.

Now the Russians have invited Germany's Chancellor Julius Raab there earlier in the year and no doubt with the same purpose: to try for a neutralized Germany.

Russian tactics have appeared more reasonable in the past four months than Stalin's in the eight years between the end of the war and his death in 1953.

Billy the Kid Was a Famous Juvenile Delinquent of West

By HAL BOYLE

LINCOLN, N. M. (AP)—The Old West had its juvenile delinquents, too.

The most famous was William H. Bonney, better known as Billy the Kid.

Historians still argue over the real character and actual criminal record of this buck-toothed frontier lad.

Legend has it that in his brief 21 years he killed 21 men, "not counting Indians and Mexicans." But that is only legend.

Was Billy, a Brooklyn tenement product left fatherless at three, a born mobster with murder in his heart? Or was he just a victim of his wild environment, a "crazy mixed-up kid?"

Unfortunately, Billy didn't live

As Sedalia Sees It—

Symington Can Take Credit For Speed-Up of B-52 Output

By MAURICE G. BOEHL
Democrat-Capital
Washington Bureau

WASHINGTON — Senator Stuart Symington can take a good part of the credit for the Defense Department's decision to speed up production of the B-52 long range bomber.

Defense Secretary Charles Wilson seemed unperturbed after a military demonstration in Moscow on May 13 showed the Russians had formations of up to 10 intercontinental bombers, comparable to the U.S. B-52 which has not yet reached full production, as well as a medium bomber comparable to the U.S.'s latest all-weather fighter.

But Symington charged that the United States "may have lost control of the air" to Russia although only a year ago Defense Secretary Wilson had assured "the American people that the Soviets were building primarily a defensive air force." The announcement of the new Soviet planes, the Missouri Democrat said, "proves him dead wrong. I am confident that they (the Russians) are well ahead with the production of the possible ultimate weapon—the intercontinental ballistic missile."

Symington, a former Secretary of the Air Force under President Truman, also introduced a reso-

lution asking the Senate to review the relative military strength of the Communist forces as against the forces of the free world. Senator Richard B. Russell (D-Ga.), Chairman of the Armed Services Committee, indicated that his committee, on which Symington serves, would investigate. Initial hearings were held on May 26. And, as Symington puts it, "the first major decision which followed the conclusion of that hearing was to speed up production of our B-52s, the new intercontinental jet bomber."

But Symington still isn't satisfied. "More action is needed," he's now saying, "particularly in the field of fighter planes and in research and development. A recent report of the Hoover Commission supports my position for that need for more research and development activity in the military field."

As the Moscow air show included new fighter types as well as bombers this sounds like a good suggestion but Wilson says that the Air Force has not yet urged it, concentrating its attention on the new bombers.

This doesn't indicate to Symington that things are as they should be. "The growing military strength of the Communists as against the strength of the United States is one of the most critical issues before our country today," he says.

Dr. Jordan Says—

Here Are Some Useful Tips For Athlete's Foot Victims

By Edwin P. Jordan, M. D.

With the arrival of warm weather and the increasing use of locker rooms, swimming pools and other athletic facilities used by great numbers of people — ringworm increases by leaps and bounds.

This is a disorder of the skin which is also known as athlete's foot, but its best medical name is dermatophytosis. The various fungi (which are a variety of plant life responsible for dermatophytosis) grow best under conditions of moisture (hence their increase frequency in the summer months) and are spread from person to person from moist floors, towels, socks, and the like.

The feet, between the toes, the hands, the groin, and the scalp, are favorite locations for this condition.

Dermatophytosis may take various forms, such as blistering, scaling, cracking, lumps or callous-like lesions of the skin. Itching is frequent.

Many persons have only mild symptoms which they do not rec-

ognize, and allow to go on for a long time without treatment.

The Council on Pharmacy and Chemistry of the American Medical Association has made some recommendations on dermatophytosis which include the following: The feet should be kept clean and dry with special attention to places between the toes, the shoes and socks should be aired when not in use.

What shoes are selected should be chosen with a view to making them as light and well-aired as compatible with working conditions.

A dusting powder consisting of 10 per cent boric acid in powdered talcum should be put on the feet, in between the toes every night and morning.

The council suggested the following policy as to treatment: "Only the mild lesions that occur between

Billy had his friends as well as critics. The Democrats, perhaps annoyed at losing a potential voter so young, denied Garrett renomination, and he moved on to other parts.

Some students of frontier culture hold Billy's reputation as a bad man was blown up by Garrett himself in his memoirs to justify the way he killed the Kid. They say only three killings can be pinned on him with absolute certainty two of them in his jailbreak to escape the noose.

"There weren't any heroes in the Lincoln County War," says one present resident. "They were all pretty rough characters."

But, misunderstood, or not, everyone agrees Billy the Kid was a juvenile culprit. And his short bloody career and lonely death did much to bring law and order to a wild area where the nation's military services now placidly test rocket projectiles far faster than the Kid's simple single action 44-caliber Colt revolver.

"Considerable redness, moisture, posture formation or pain call for the attention of the physician and the physician only. The patient must err on the safe side."

Nothing is completely safe as a local application except the boric acid foot powder mentioned. When improvement does not develop in two weeks, a physician should be consulted.

Self-treatment or overtreatment of these fungus infections frequently makes them much more difficult to cure, or leads to complications.

The particular fungus responsible can be identified only with the aid of the microscope. Proper treatment depends on the kind of infecting fungus found, its location, and how long it has been present.

There are, however, an increasing number of good chemicals which attack the fungi responsible for this annoying disorder.

Jane Russell Shuns Screen Reputation

By BOB THOMAS
HOLLYWOOD — Jane Russell continues to confound the type casters by refusing to live up to her film siren reputation offscreen. Between scenes of "The Tall Men," which she is making with Clark Gable, she explained her great interest in WAIF. The initials stand for Women's Adoption International Fund.

"The organization was set up three years ago," said Jane, one of its leaders. "There seemed to be a real need for a group which could attend to one of the world's most pressing human problems. That is: that there are areas in the world where people want chil-

dren, and there are other areas where children need parents. "The purpose of WAIF is to help these two groups get together." She said WAIF operates as an arm of International Social Service, Inc., a 35-year-old organization with headquarters in Geneva. "One of our principle problems is adoption laws," she said. "Most of them were enacted merely as a protection against white slavery. There are 33 different adoption laws in this country, and many of them are pretty poor. We hope

all of the states will adopt a standard, up-to-date code for adoptions." Jane said she became interested in adoption matters when she encountered difficulty adopting children herself. She and Bob Waterfield now have a daughter, Tracy, 4, adopted in this country, and Tommy, 5, from a British couple who felt he would have more advantages in this country. The actress said the main sources of children for adoption include Italy, Germany, Greece, Japan and Korea.

Children's Day At Immanuel For Sunday Worship

Children's Day will be observed at Immanuel Evangelical and Reformed Church Sunday morning. Church School will begin at the usual hour, 9:30 a.m., but will not have any worship, just a half hour for class sessions. So each is asked to go directly to his or her class. Then the Church Worship will begin at 10:00 a.m. instead of 10:35 a.m. for this Sunday, so the children might remain and lead the worship for their Children's Day Program. The theme of the Service will be: "I Was Glad." The Kindergarten, Primary, and Junior Departments will take part.

At 11:00 a.m., following the service, the entire congregation is invited to go to the church picnic, to be held at the Quisenberry School, located 3 1/2 miles from Sedalia (east on 16th St. and south

Monday all articles for the monthly church paper must be in the pastor's hand by 10:00 a.m.

Rev. Joshua Tien

'Voice from China' At Methodist Revival For Smithton Church

The Rev. Joshua Tien, "A Voice From China," will be the preaching evangelist at a revival in the Smithton Methodist Church starting Sunday, June 12. Rev. Tien came to the United States to complete his ministerial education. During this time, the community in which he had lived was occupied by the Communists and his family and friends left victims to the invaders.

With this experience, Rev. Tien has dedicated himself to a vigorous crusade for Christ. Rev. Tien has been enthusiastically received in all of his meetings. Everyone is cordially invited to come and receive the challenge and "food for spiritual strength" in each of the messages.

Come and bring a friend as we lift our voices in song and our hearts in worship. Services will begin at 8 p.m. each night.

Honor Pastor With Covered Dish Supper

A covered dish supper will be held at the East Sedalia Baptist Church Wednesday evening at 6:30 p.m. in honor of the new pastor, and his family, Rev. and Mrs. B. E. Eldridge, Steve and Charlie. Drinks and table service will be furnished. Rev. Eldridge will conduct a short prayer service following the supper.

Eldridge has announced his Sunday sermon topics as follows: "I Belong to the Church" and "Not Far from the Kingdom," morning

Sunday School Lesson Notes

By William E. Gilroy, D.D.

Is there a best in the Bible? someone may ask. Is not the Bible all good?

Yes, the Bible is all good in what it tells us concerning God. But I have recently written of the Bible as a great book of truth and realism concerning man. In its great honesty that truth and realism depicts man in all his evil, as well as in his capacity of good.

Anyone who has been studying in the Books of Kings and Chronicles need not be reminded of the pages that reek in the blood of slaughter and assassination (See such passages as II Chronicles 28:6 - 8 and II Chronicles 22:10 and 23:15, among many).

Appreciation of the Bible's honesty in recording facts as they were cannot make the record of evil pleasurable, and the Bible would not be what it is, if it were only the story of man's evil and of his failure. So there is a best in the Bible; to be constantly sought and borne in mind and heart as one reads the sadder and grimmer pages.

That best in the Bible is found even near the records of iniquity, in individuals and kings who did righteously in evil times, in prophets who rebuked the sin in kings and peoples with fearless proclamations of the judgment of God, and in saints who lived lives of holy contemplation and aspiration.

It is my own feeling that courses of study in the Old Testament, particularly of such Books as Kings and Chronicles, should be interspersed with much study and reference to the New Testament.

I question the wisdom of carrying children, and even adults, through long weeks of unbroken study of records of so much evil, although I recall that when my nephews and nieces used to spend the summers with me, and I read the Bible in daily family devotions, they used to say: "Read the Old Testament, Uncle."

I suspect that they enjoyed the stories of wars and adventures, of which there are plenty. There is in most young folk, and perhaps in older folk, too, an interest in books like Treasure Island, in pirates, and adventurous rascals, without any intention of being rascals themselves, and perhaps with little realization of the bloody and violent backgrounds.

Whether or not it is a rather harmless, or a deplorable, interest, I don't know. It may be only an infusion of something different in to one's normal life and environment. Some very good and harmless people take a great interest in mystery stories about crime and murder.

But I have a feeling that every Bible lesson, whatever its theme, ought to have injected into it some teaching about Jesus, and something about the teaching of Jesus. It ought to be Christian as well as Biblical.

For those who may feel as I do there is something of interest and profit in a recent book of seventeen sermons, nine of them based on the Beatitudes, and the other eight on sayings and experiences of Jesus. Their author is Dr. Frederick M. Meek, Minister of the Old South Church, in Boston.

Dr. Meek has just come through a tragic experience, which fortunately has had a happy ending. A throat infection imposed upon him a complete and unbroken silence

Rev. Oral Roberts

The world's first Bible deliverance film, "Venture Into Faith," which is built around the evangelistic ministry of Rev. Oral Roberts, will be shown at the Open Bible Church, 701 East Fifth, Friday night.

The film features Oral Roberts and tells an absorbing story of the power of faith in God. Centering around the nation-wide Roberts' campaigns, this sound-color religious picture includes scenes from Oral Roberts meetings under the huge "tent cathedral," which seats 12,500.

The picture is being shown without admission charge throughout the country in churches and auditoriums, but will not be shown in theatres. Everyone is invited to attend.

Representatives are Rev. and Mrs. Roy Parker, former pastors of the Open Bible Church.

Funks Observe Close Of Second Full Year At Trinity Lutheran

The Rev. and Mrs. David M. Funk will observe the close of their second year in Trinity Lutheran Church Sunday. A baptism service with the reception of new members will be held at this service. The congregation will witness the reception of the 200th new member into this congregation Sunday morning, during the two years of service with the Funks as leaders. The congregation has more than doubled in the two years, with the average attendance in both Sunday School and church tripling during this time.

Many new features have been inaugurated during the two years, such as Vacation Bible School, Luther League, graded Sunday School and the junior choirs and circles for the work of the women of the church, Christian Comrades Club and many other features to help integrate the new members into the life of the church.

Tuesday, the Christian Comrades Club will hold their monthly dinner at 6:45 p.m. Wednesday at 7:30, the senior choir will have rehearsal with Leonard England in charge.

for six months. He has recovered and recently returned to his pulpit. His book of sermons is aptly entitled The Life They Live; they are essentially helps toward living it.

This, and a former book of sermons, Monday to Friday is Not Enough, are published by the Oxford University Press.

It was Black, now 31, who wrapped up the 1952 pennant for the Dodgers. Moving up from the obscurity of the Negro leagues in the winter of 1950, he joined the Dodgers in the spring of '52 and set off on a brilliant relief record.

Appearing in 54 games—a Dodger record at the time—the right-hander posted a 15-4 record. He saved 15 other games and had a 2.15 earned run average.

Off that performance, Black was given a starting role in the World Series and beat the New York Yankees 4-2.

The following year, Black slumped, winning only six of nine while his earned run average went to 3.30. He opened the '54 season with the Dodgers, but was shipped to the minors, where his 12-10 record at Montreal earned him another chance in the big time.

BROOKLYN (P)—The Brooklyn Dodgers, riding a 8½-game lead in the National League and convinced they have all the pitching they need, sent one-time hero Joe Black to Cincinnati yesterday for an estimated \$25,000 and a minor league player to be named later.

Aussies Lead In IGA Champ Play

WASHINGTON (P)—Australia and the United States paced the field into today's second round of the International Golf championships.

Rain was predicted for the second straight day of the 26-nation tourney.

The Aussies held a 4-stroke lead in the competition for the low team score and Australia's Peter Thomson had a 3-stroke edge over Chick Harbert of the United States for the individual title after 18 holes of the 72-hole tournament.

Thomson was the only player among the 50 in contention to break par over the 6,510-yard Columbia Country Club Course yesterday.

The Australian, who with Kel Nagle is defending the team championship, was the last man in yesterday, and he turned in a 67.

Harbert, who had one bad hole, a 7 on the par 4 second, was in a four-way tie for second with an even par 70.

Harbert's partner on the U.S. team, Open Champion Ed Furgol, scrambled to a 73 for a team score of 143, good for second place.

The recognized marks in the half mile and in the mile relay were considered in danger, at the annual Pacific Association (AAU) meet, but wind over the allowable 4.47 miles per hour could wreck the attempts of both Wes Santee and Arnie Sowell in the 880 and the Oklahoma A&M mile relay quartet.

Santee, the Kansas cowboy who has tried but failed repeatedly to run a four-minute mile, and Sowell, the University of Pittsburgh star, are two of the top 880 men in the country but never have raced each other. Both have been clocked in brilliant times—Santee in 1 minute 48.5 seconds on May 21 at Modesto, Calif., and Sowell in 1 minute 49.1 seconds one week later at New York.

The world record both will be shooting at is Mal Whitfield's recognized 1953 figure of 1 minute 48.6 seconds. Santee, enroute to his starting time at Modesto, whipped soundly the only man who ever ran the distance faster—Lon Spurrier, former University of California track captain who did a 1:47.5 in an open triangular meet March 26. The time is up for consideration.

Running with Santee and Sowell, whenever the race is held, will be another pair of ace half-milers—Bill Heard of Oklahoma A&M, who has done a 1:50.5, and Fresno (Calif.) State's Dave Casper, who has a 1:50.7 to his credit.

Heard also is down for the second leg on the Aggies' relay team which has announced it will go for the world mark of 3 minutes 8.8 seconds in the four-man mile. Jack Hays will lead off, with Fred Schermerhorn and J. W. Mashburn handling the third and anchor legs.

"That's what we're here for," said a spokesman for the quartet. Arrangements have been made to give the Aggies an excellent chance. A "meet directors' team" of Santee, Sowell, Casper and Herb Turner, speedy Fresno State quarter-miler, will set the pace as the four try to better their best previous time of 3:10.9. Also running, to make it an official race, will be teams from the Santa Clara (Calif.) Youth Center and the San Francisco Olympic Club.

Three Americans In French Golf Finals

PARIS (P)—L. Joe Conrad of San Antonio, Tex., who last week won the British Amateur title, advanced to the semi-finals of the French Amateur golf tournament today with two other Americans—Walker Cup Captain Bill Campbell and Don Bisplinghoff.

The fourth semi-finalist is Henri LaMaze of France, the defending titleholder.

Conrad, continuing to play excellent golf, eliminated Bruce Cudd, a member of the U.S. Walker Cup team, 3 and 2. Bisplinghoff, from Huntington, W.Va., edged out Arthur Perowne of Britain, 1 up. LaMaze defeated Lt. Jim Gray of Jacksonville, Fla., in the most one-sided match of the day, 9 and 8.

"BABY" LANDS OPEN GOLF BERTH—Deane Beman, 17-year-old Bethesda, Md., high school golf star, smiles from between driver and putter which won him a berth in the star-studded field for the National Open Golf championships in San Francisco. He'll be the "baby" of a field numbering such luminaries as Ben Hogan, Sam Snead and Cary Middlecott. Beman, who shot 75-69-144 to qualify, got his chance when Charlie Bassler of Baltimore withdrew. Belmont Stakes May Also Decide Two Horse Races

By GAYLE TALBOT

NEW YORK (P)—If Nashua runs away with tomorrow's Belmont Stakes, as practically everyone seems to think he will, there is talk that the Eastern champion will take on Swaps, the doughty California flyer who outran him in the Kentucky Derby, in a special match race at Chicago in August.

The only thing mitigating against such a dream gallop between the country's two outstanding 3-year-olds is, at the moment,

that no one closely connected with either animal admits any knowledge of the proposed test. That, however, is regarded as incidental by those who have made the match and even set the precise date of its running. The respective owners, William Woodward Jr. (Nashua) and Rex Ellsworth (Swaps) will, we gather, be told when to ship their steeds to Chicago.

Neutral observers around here—that is, those who favor neither the promoters nor the owners in the squabble which appears to be impending between them—doubt that the race ever will come off. And, if it is run, they doubt that it will prove very exciting.

The history of such equine duels, they contend, shows that it is next to impossible in mid-summer or later to bring two horses to the peak of condition on the same day, or even the same week. One of them, yes, but not both. The result usually is, the skeptics say, that the fit colt runs away and hides and nothing is decided, really.

Looking over a list of more than 40 such two-horse tests run in this country, Mexico and Canada since the turn of the century, we find in most instances the winner was lengths ahead at the finish, as many as the 12 lengths by which Capot whipped a tired Coaltown in the Pimlico Special of 1949.

Most such two-horse races, incidentally, have been regularly scheduled events in which two standouts scared away the other horses.

Even the most famous such race of our time, the Pimlico Special of 1938 in which the great Seabiscuit collared Man O'War's finest son, War Admiral, was not quite as close as fond memory seems to recall. While the pair put on a thundering race most of the way and were only noses apart going into the home stretch, Seabiscuit took firm charge in the last furlong and won by four lengths, going away.

When Armed, the noted Calumet gelding, outran King Ranch's Assault by eight lengths at Belmont Park for a \$100,000 prize in 1947, it was learned later that Assault actually was so lame that he had no business on the track. The latest effort to arrange such a match, between Native Dancer and Tom Fool two seasons ago, fell through when Native Dancer went lame.

Basilio has been waiting for a second chance at the title since losing a disputed split decision to Kid Gavilan, then ruler of welterweights, Sept. 18, 1953.

On form and styles, both are good punchers with solid left hooks and able to get off fast combinations of punches.

Basilio, however, has met and beaten better opponents. That's apparently the key reason odds-makers have made him the favorite.

The challenger never has been stopped in posting a 44-11-7 record with 20 knockouts. DeMarco, who stands 5-5½ to Basilio's 5-6½, was stopped twice early in his career, by Art Sufalatta and Chick Boucher.

Since his disputed loss to Gavilan, Basilio has gone undefeated in 11 fights, including draws with middleweights Pierre Langlois and Italo Scorticini. He beat them in later bouts. His last outing was a 10-round victory over Germany's Peter Mueller Jan. 21.

Tony has a longer undefeated streak than Basilio. His is 17, including a draw with lightweight king Jimmy Carter.

Yanks Move to Cleveland For Vital Series of Four

By ED WILKS

The Associated Press

Are the New York Yankees being conned into a false sense of security, or is that really a bunch of dead injuns back there in third place in the American League?

The next three days may tell. The Yanks move into Cleveland tonight for a four-game series.

Having disposed of a two-game losing string and Detroit 7-3 yesterday, the Bombers barge into Municipal Stadium with a fat 5-game lead over the second place Chicago White Sox and a 5½-game spread over the Clevelanders, who lost their third straight to Boston 4-2.

Manager Casey Stengel goes into Cleveland playing the percentages.

He needed a victory yesterday, so he called on Whitey Ford (7-1), presumably passing him over for the Indians' series, while naming Ed Lopat (3-4) to face the Tribe tonight. Lopat, only 14-30 lifetime vs. Detroit, is 40-13 against Cleveland.

Ford didn't go all the way, Jim Konstanty won it in relief, but Stengel got the victory he wanted, gaining a half game on the White Sox who were rained out of a doubleheader with Baltimore.

The other AL game was won by Kansas City, 4-2, over Washington. In the National, Chicago's Cubs beat Pittsburgh 6-2 and Robin Roberts beat St. Louis with a three-hitter 2-0 for Philadelphia.

Rain and cold postponed Cincinnati at Brooklyn and Milwaukee at New York.

Eddie Robinson hit his 10th home run (the Yankees' 71st) with two on in a four-run first inning that beat the Tigers. Konstanty, making his sixth appearance in seven days, replaced a shaky Ford in the fifth and blanked the Tigers on one hit the rest of the way for his third decision.

Three errors beat Cleveland and Herb Score, who was knocked out in the first inning by Boston Tuesday night. Only one of the Red Sox runs was earned, driven home in the fourth on a double by Frank Sullivan—who shut out the tribe on four hits until the ninth when he needed help from Ellis Kinder to win his sixth.

Washington's second straight defeat at Kansas City pulled the Senators into sixth behind the Red Sox. Four runs in the fourth on just two hits did it for the A's. Art Ditmar singled home the final two runs to win his third.

At Philadelphia, Roberts won his ninth, walking none and retiring the first 12 men he faced before giving up the first of the Cards' three singles.

Paul Minner tossed a six-hitter for the Cubs. Walker Cooper's home run broke up a 2-2 tie in the seventh as Chicago tagged Bob Purkey for 13 hits and his seventh defeat.

NCAA World Series To Start Today in Omaha

OMAHA (P)—The annual NCAA College Baseball World Series was set to get underway here today with a late morning game pitting Colgate against Wake Forest, the latter one of the top bracket favorites.

They were to be followed by Southern California and Colorado State in the afternoon game on the Omaha Municipal Stadium diamond.

Night games were to see the two top favorites—Arizona and Oklahoma A. and M., both blessed with pitching depth and free swinging hitters, in action.

Arizona was slated to go against Western Michigan and the Aggies against Springfield (Mass.). The tourney is a double elimination affair.

The record for most home runs in the majors during one month was made by Rudy York of the Detroit Tigers. In 1937 he hit 18 in August.

In the 19 years the American Hockey league has been in existence, the Cleveland Barons have taken part in the playoffs 17 times.

Chiefs Rained Out Play Mexico Here

The Sedalia Chiefs, Central Missouri Ban Johnson team, scheduled game with the Columbia Ban Johnson club was rained out after both teams had taken the field and completed their infield and batting practice Thursday evening at Columbia.

Members of the Chiefs club stated they spotted clouds moving toward Columbia as they were nearing Marshall on the trip up to the game and by the time they had completed practice a down-pour prevented the actual game. "Skip" Schultz had been scheduled for mound duties for the Chiefs.

A double header with the Mexico Ban Johnson club will be held at Liberty Park starting at 6:30 p.m. Sunday. Pitchers for the games will be Ken Buhlig and Billy Arnold.

Players are to report for practice at 3:30 p.m. Sunday.

Lions Top Icemen 8-6 Thursday Night

In the Thursday evening session of the Little League games at Liberty Park Little League Stadium the Lions defeated the Ice and Cold Storage club by a score of 8-6. The game was nip and tuck between the teams until Hannigan, the relief hurler came into the game all tied up 6-6. After pulling the Lions through the game he was credited as winning pitcher.

Hornor the Ice and Cold Storage moundsman was tabbed for the loss. Several long flies to the fence were witnessed in the game, but they failed to turn into the homers which would have decided the victor earlier in the game.

In the second game Wittaker led the Adeo Club to a 9-3 decision over the Optimists. The game was called on the time limit ruling, but the Adeos wtn left no room for doubt as to the outcome. Fricke was the losing pitcher for the Optimists.

Scotties Play Kansas Team Here Saturday

The Kansas City Scotties girls' softball team will play the Thomas of Kansas team at 8 o'clock Saturday evening at Center Park, 16th and Center.

They defeated Big Springs, Ia., last Saturday by 12-11, and will meet Wichita, Kan., June 18.

The Scotties haven't yet found a sponsor for their team from the Sedalia area.

Babe Ruth League Games Due Tonight

The following games are scheduled tonight in the Babe Ruth League on the big diamond at Liberty Park.

6:30 p.m. - Mullins vs. Western Auto; and 8:15 p.m. - Browns vs. Andersons.

Little LEAGUERS

Optimist majors will practice Saturday at 5 p.m. at the Little League Stadium. All members are requested to be present.

3-In Memoriam

IN LOVING MEMORY OF our dear son and brother, Billy Fredrickson, who was killed in action in Korea two years ago today, June 10, 1953. His smiling face and pleasant face are a pleasure to recall. He had a kindly word for each, and died beloved by all. Some day we hope to meet him. Some day we know not when. To clasp him in the better land. Never to part again. Sincerely, Mother, Father, Sisters and Brother.
